PC gallery

PVC gallery BY PERELINAS

PVC gallery is subsidiary of company D.ELLINAS FACTORY PRODUCTS LTD and is based in Cyprus with showrooms in Limassol, Paphos and operates in Greece with sales points in Athens, Thessaloniki, Rhodes and Crete.

PVC Gallery has been sculpting extraordinary products since 2009 such as exterior and interior facades, pergolas, fencings, profiles, and cornices.

Our main goal is providing products with competitive prices, short delivery time and excellent service. Pvc gallery aspires to grow even more each year in being another creative "tool" for professionals' architects, decorators and company builders, or just the lovers of modern design and innovative products.

With a growing environmental consciousness in the marketplace towards using "green" and sustainable materials, we can actively source PVC leftovers trough out production line and recycle them back to foamboard PVC panel for your eco-friendly project.
